

The Western Cape has a Mediterranean climate with hot dry summers and cold wet winters. This is the ideal climate to grow wine grapes. Each region where wine grapes are grown has different characteristics, so one should investigate as much as possible to determine the best wines from each region.

The wine list at The Lookout Deck has been compiled through constant personal investigation and tasting from the wines of the Cape. Only the best of these wines have been included in this wine list.

Food and wine are meant to complement each other, please feel free to ask your waiter for ideas as to which wine will best complement your meal.

Other than aperitifs and digestives, we also have a selection of wines by the glass. Please ask your waiter about these wines.

Nederburg Auction Wines - these wines, which were hand-crafted for the Nederburg auction, were carefully selected, and specifically bought for The Lookout Deck, these exceptional wines should really compliment your dining experience.

Brandies, Cognacs, Whisky and Single Malt Whisky's are listed at the back of the wine list.
